

The law passed in Indiana to stop telemarketing phone calls has been very beneficial for me. Before the law, I was receiving at least 3 to 5 calls a day even on Sunday. I'm on a fixed income and can truly not afford any contributions or impulse buying but found it very hard to turn some of the "good" causes down. Since the law was passed, I have been successfully removed from these lists. I have received 0 telemarketing calls. Please do not overwrite this state law if you do not make it as forceful as it currently is.
